# AGREEMENTS and AUTHORIZATION

## Consent To Health Care Services/Release of Health Care Information

You, (the undersigned Patient, or undersigned person responsible for consenting on Patient's behalf), hereby request and consent to Patient health care services from this office. The Patient health care services will be provided by and overseen by licensed, treating physicians. Health care services will also be provided by non-physician health care professionals and assistants employed or otherwise retained by this office.

\_\_\_\_\_ initial

## Payment Guarantee

In consideration of the services provided by this office, Provider to Patient, you agree to; I) guarantee payment of all charges incurred by Patient in connection with such services ("Patient Charges"); II) irrevocably assign and transfer to this office, all right, title and interest to medical reimbursement benefits to which Patient is entitled for the purpose of payment of Patient Charges; and III) authorize payment of such benefits directly to this office. You also agree to be fully responsible for the payment of any and all Patient Charges to the extent that these charges are not satisfied by the assigned benefits.

\_\_\_\_\_ initial

## Notice of Non-Coverage

If you have insurance, insurance companies will only pay what is covered in each individual's insurance policy. Your insurance does not pay for all of your healthcare costs, specifically as it relates to treatment in a chiropractic office. Your insurance policy will only cover services that it deems are "Medically Necessary" according to their specific guidelines. When you receive a service or item that your insurance policy does not cover, then you are personally responsible for the non-covered services at the time they were rendered (unless prior arrangements have been made). Specifically, your insurance policy will not allow payment for the following non-covered services and you will have to pay out-of-pocket the normal fee as listed below because they are routinely deemed not-medically necessary according to insurance guidelines: maintenance/wellness chiropractic care, nutritional supplements, therapeutic modalities used for maintenance, massage and any service beyond your benefit plan visit limitations or services that are excluded from the benefit plan.

## Patient Right To Restrict Disclosure of Protected Health Information (PHI)

For any service in which you pay for 100% out-of-pocket, you have a right to restrict the disclosure of that healthcare information for that particular service to any health insurance entity. This is according to your HIPAA privacy rights established under the American Recovery and Reinvestment Act (ARRA) of 2009. For services that are non-covered under your insurance plan and that you pay for in-full out-of-pocket, you understand and request that this office does not bill for any of these non-covered services or items on my behalf and that you wish to restrict the disclosure of PHI of these services from your insurance company.

## Cancellation Policy

I understand that I will be charged \$25 for any missed chiropractic appointment

I understand that I will be charged \$40 for failure to cancel any massage appointment within 24 hours of the appointment time.

## **Consent To Release Information**

Here at this office, we do not sell or release your information to third parties. There will be cases along the course of your care where information will need to be released in certain circumstances. In the case of Patient Information released for purposes of payment of Patient Charges, this authorization shall be valid only for the period of time necessary to process payment claims. You agree to pay any Patient Charges that are denied or are ineligible for medical reimbursement benefits as a result of your refusal or revocation of consent to disclose Patient Information.

You further authorize any individual health care professional, including treating physician(s), to provide this office or its designee with Patient Information for quality assurance and, or risk management purposes. Finally, in the event that the Patient's employer, or an insurance company representing such employer, requests Patient Information relating to healthcare services provided for worker's compensation injuries, it is understood and agreed that this office is required, under state law, to release copies of such information to such employer or insurance company without the authorization of Patient or Patient's representative. # Informed Consent for Chiropractic Care

Please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask questions before you sign if there is anything that is unclear.

The primary treatment used by doctors of chiropractic is spinal manipulative therapy. I will use that procedure to treat you. I use my hands upon your body in such a way as to move your joints. That may cause an audible "pop" or "click," much as you have experienced when you "crack" your knuckles. You may feel a sense of movement.

Analysis / Examination / Treatment

As a part of the analysis, examination, and treatment, you are consenting to the following procedures **please initial:**

- \_\_\_\_\_ spinal manipulative therapy
- \_\_\_\_\_ ultrasound, hot/cold therapy, or electrical muscle stimulation
- \_\_\_\_\_ x-ray studies

As with any healthcare procedure, there are certain complications which may arise during chiropractic manipulation and therapy. These complications include but are not limited to: fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, costovertebral strains and separations, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following the first few days of treatment. The Doctor will make every reasonable effort during the examination to screen for contraindications to care; however, if you have a condition that would otherwise not come to the Doctor's attention it is your responsibility to inform the Doctor.

Fractures are rare occurrences and generally result from some underlying weakness of the bone which we check for during the taking of your history and during examination and X-ray. Stroke and/or arterial dissection caused by chiropractic manipulation of the neck has been the subject of ongoing medical research and debate. The most current research on the topic is inconclusive as to a specific incident of this complication occurring. If there is a causal relationship at all it is extremely rare and remote. Unfortunately, there is no recognized screening procedure to identify patients with neck pain who are at risk of arterial stroke. The availability and nature of other treatment options:

Other treatment options for your condition may include:

- Self-administered, over-the-counter analgesics and rest
- Medical care and prescription drugs such as anti-inflammatory, muscle relaxants and pain-killers
- Hospitalization
- Surgery

If you chose to use one of the above noted "other treatment" options you should be aware that there are risks and benefits of such options and you may wish to discuss these with your primary medical physician. Remaining untreated may allow the formation of adhesions and reduce mobility which may set up a pain reaction further reducing mobility. Over time this process may complicate treatment making it more difficult and less effective the longer it is postponed.

**DO NOT SIGN UNTIL YOU HAVE READ AND UNDERSTAND THE ABOVE.**

I have read [ ] or have had read to me [ ] the above explanation of the chiropractic adjustment and related treatment. I have discussed it with the doctor and have had my questions answered to my satisfaction. By signing below, I state that I have weighed the risks involved in undergoing treatment and have decided that it is in my best interest to undergo the treatment recommended. Having been informed of the risks, I hereby give my consent to that treatment.
